

Outlineoffungi.org - Note 119, [Cristataspora](#)

[Cristataspora](#) Robledo & Costa-Rezende

Based on morphological and phylogenetic evidence, [Cristataspora](#) was introduced by [Costa-Rezende et al. \(2020\)](#) to accommodate two species of *Ganoderma* (*G. coffeatum* and *G. flaviporum*) with pale context and truncate basidiospores with endosporic ornamentation as ridges (M. Erdoğan).
