Xenopolyscytalum Crous

In the analyses presented by Wu & Diao (2023), DNA sequences from the ex-type culture of *Xenopolyscytalum pinea* (CBS 126493), place this monotypic genus in *Hamatocanthoscyphaceae*. Koukol (2012) discussed morphological differences between the *Chalara*-like genera *Xenopolyscytalum* and *Infundichalara*.
