[Hausknechtia](#) D. Wächt. & A. Melzer

[Hausknechtia](#) was erected by [Wächter & Melzer \(2020\)](#) to accommodate *Galerella floriformis*. The type species *H. floriformis* was described based on its deliquescent lamellae, the absence of cheilocystidia, and phylogenetic analyses ([Wächter & Melzer 2020](#)) (M. Erdoğan).
