

Outlineoffungi.org - Note 293, [Narcissea](#)

[Narcissea](#) D. Wächt. & A. Melzer

[Narcissea](#) was introduced by [Wächter & Melzer \(2020\)](#) to accommodate *Coprinus cordisporus* and *C. patouillardii*. The type species, *N. patouillardii*, was described based on the strongly flattened spores with a tri- to polygonal outline, and phylogenetic analyses ([Wächter & Melzer 2020](#)) (M. Erdoğan).
