

**Outlineoffungi.org - Note 359, [Ostropomyces](#)**

[Ostropomyces](#) Thiyagaraja et al.

[Thiyagaraja et al. \(2021b\)](#) introduced [Ostropomyces](#) for two new saprotrophic species. These species were recorded in their sexual and asexual morphs and formed a close clade to *Ostropa* in the phylogenetic analysis (V. Thiyagaraja).
