

Outlineoffungi.org - Note 371, [Parahelicomyces](#)

[Parahelicomyces](#) Goh

[Pseudohelicomyces talbotii](#) was renamed by [Hsieh et al. \(2021\)](#) as [Parahelicomyces talbotii](#) as the former genus was a homonym thus illegitimate. The other six illegitimate *Pseudohelicomyces* species were transferred to [Parahelicomyces](#) as new combinations ([Hsieh et al. 2021](#)) (M. Erdoğan).
