

Outlineoffungi.org - Note 422, [Pseudomarasmius](#)

[Pseudomarasmius](#) R.H. Petersen & K.W. Hughes

[Petersen & Hughes \(2020\)](#) introduced [Pseudomarasmius](#) to accommodate four species and four others previously placed in [Marasmius](#). The genus differs from [Marasmius](#) by the presence of diverticulate hyphae in the pileipellis and the absence of clamp connections ([Petersen & Hughes 2020](#)) (M. Erdoğan).
