

## Outlineoffungi.org - Note 490, [Strigulaceae](#)

[Strigulaceae](#) Zahlbr.

[Jiang et al. \(2020b\)](#) reinstated some genera that were previously synonymized with [Strigula](#) subsequently [Hongsanan et al. \(2020\)](#) introduced some new genera in this family and provided a generic placement for all accepted species in this genus in the wide sense (A. Aptroot).
